- 1. Message will now appear when an eROP is ready to download..... 2**

1. Message will now appear when an eROP is ready to download

After selecting “download an eROP,” the user must wait until the system has finished processing the request to download the eROP contents. With this enhancement, a “tool tip” message will indicate that the eROP download is ready will appear, when the user hovers the pointer over the “Download” icon. The user will also receive instant notification that the download is ready, wherever they are in the application.

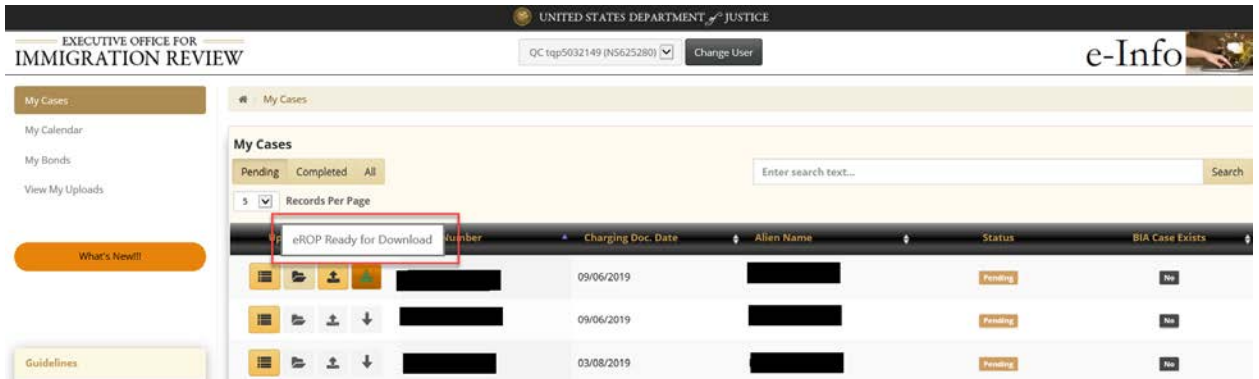

Figure 1: When eROP is ready to download, message will appear on screen when user hovers over the “download” icon
