SUPPLEMENTARY INFORMATION: CBP invites the general public and other Federal agencies to comment on the proposed and/or continuing information collections pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). This proposed information collection was previously published in the Federal Register [86 FR 10115] on February 18, 2021, allowing for a 60-day comment period. This notice allows for an additional 30 days for public comments. This process is conducted in accordance with 5 CFR 1320.8. Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

Overview of This Information Collection

Title: Stakeholder Scheduling Application.
OMB Number: 1651—NEW.
Type of Review: This is a new information collection.
Affected Public: Individuals and Businesses.
Abstract: The Stakeholder Scheduling capability is a mobile application within the “CBP Ono™” app that will standardize and automate the manual process of brokers and travelers making and updating appointments with CBP for various services. Currently, Customs and Border Protection Officers (CBPOs) and CBP Agriculture Specialists (CPBAS) spend significant time exchanging phone calls, faxes, and emails from stakeholders to schedule inspection services. This includes inspections of perishable cargo, non-perishable cargo that have been identified for mandatory examinations, and commercial vessel and commercial or private air arrivals. Based on security vetting, CBP notifies stakeholders that certain cargo requires a scan by CBP Non-Intrusive Inspection technology prior to release. Stakeholders then schedule with CBP a time and location for the scans to be conducted. Pilots and other stakeholders contact CBP to schedule a time and location for the inspections of commercial and private carriers (including occupants) or commercial vessels upon arrival from foreign countries. Additionally, travelers who carry-on sensitive agriculture via air carrier are required to be inspected by CBP and they must notify CBP prior to their arrival into the United States.

Type of Information Collection: Stakeholder Scheduling Application
Estimated Number of Respondents: 2,000.
Estimated Number of Annual Responses per Respondent: 127.
Estimated Number of Total Annual Responses: 254,000.
Estimated Time per Response: 2 minutes.
Estimated Total Annual Burden Hours: 8,467.

Dated: February 17, 2022.

collection techniques or other forms
of information technology, e.g., permitting
electronic submission of responses. The
comments that are submitted will be
summarized and included in the request
for approval. All comments will become
a matter of public record.

**Overview of This Information Collection**

**Title:** Electronic Visa Update System
(EVUS)

**OMB Number:** 1651–0139.

**Form Number:** N/A.

**Current Actions:** Revision of an
existing information collection with no
change in burden.

**Type of Review:** Revision.

**Affected Public:** Individuals.

**Abstract:** CBP developed the
Electronic Visa Update System (EVUS)
to assure robust screening of foreign
nationals prior to travel to the United
States. EVUS provides for robust
traveler screening and verification to
better identify foreign nationals who
may be inadmissible to the United
States. This results in enhanced national
security, improved public safety, and a
reduced number of delays upon arrival
in the United States, all while
facilitating legitimate travel.

Initially, the program is limited to
nonimmigrant aliens presenting
passports issued by the People’s
Republic of China (PRC) containing
unrestricted, maximum validity B–1
(business visitor), B–2 (visitor for
pleasure), or combination B–1/B–2
visas, generally valid for 10 years. PRC
membership in EVUS became possible
on November 12, 2014, when, in a
reciprocal agreement, the U.S.
Department of State expanded the
validity of U.S. visitor visas issued to
PRC nationals from one to ten years.

To ensure compliance with the Visa
Waiver Program Improvement and
Terrorist Travel Prevention Act of 2015,
will continuously update the
application question with the list of
nationals ineligible to travel to the
United States under the VWP, as
designated in accordance with section
217(s)(12) of the Immigration and
Nationality Act, as amended (8 U.S.C.
1187(s)(12)).

**Recent Changes:** On May 31, 2019, the
Department of State updated its
immigrant and nonimmigrant visa
application forms to request additional
information, specifically social media
identifiers, from most U.S. visa
applicants worldwide. As a result, DHS
is changing the EVUS application social
media data field from optional to
mandatory. National security is the top
priority when adjudicating EVUS
applications, and every prospective
traveler to the United States undergoes
extensive security screening. CBP is
continually working to find mechanisms
to improve our screening processes to
protect U.S. visitors while supporting
legitimate travel to the United States.
DHS already requests information on
contacts, travel history, and family
members from all EVUS applicants.
Changing the social media field to
mandatory in the EVUS application will
enhance our vetting capabilities and
assist in confirming applicants’
identities. While the field is mandatory,
applicants will still have the ability to
select “none”.

**Type of Information Collection:** EVUS

**Estimated Number of Respondents:**
3,506,904.

**Estimated Number of Annual
Responses per Respondent:** 1.

**Estimated Number of Total Annual
Responses:** 3,506,904.

**Estimated Time per Response:** 25
minutes.

**Estimated Total Annual Burden
Hours:** 1,499,492.

**Dated:** February 17, 2022.
