SUPPLEMENTARY INFORMATION: The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the state of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy direction of CALFED. The Program is exploring and developing a long-term solution for a cooperative planning process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay-Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long-term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA). The BDAC provides advice to CALFED on the program mission, problems to be addressed, and objectives for the Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff. BDAC has established a subcommittee called the Ecosystem Roundtable to provide input on annual

workplans to implement ecosystem restoration projects and programs.

Minutes of the meeting will be maintained by the Program, Suite 1155, Ninth Street, Sacramento, CA 95814, and will be available for public inspection regular business hours, Monday through Friday, within 30 days following the meeting.

Dated: June 20, 1999.

SUPPLEMENTARY INFORMATION:

To Whom Does This Notice Apply?

This notice applies to those aliens who filed an abbreviated NACARA motion to reopen by September 11, 1998, as provided in 63 FR 31890 (June 11, 1998).

What Does This Notice Do?

This notice clarifies the deadline to submit an application for suspension of deportation or special rule cancellation of removal and supporting documentation to complete a NACARA motion to reopen. Initially, the Department established a February 8, 1999, deadline for eligible aliens to submit the application for suspension of deportation or special rule cancellation of removal and all the accompanying documentation in support of the NACARA motion to reopen. See 63 FR 31890, 31895 (June 11, 1998). In the final NACARA motion to reopen rule, the Department extended the deadline to complete a NACARA motion to reopen to 150 days after the rule implementing section 203 of NACARA becomes effective. See 64 FR 13663 (March 22, 1999). The rule implementing section 203 of NACARA was published on May 21, 1999, and the effective date is June 21, 1999. This notice will alert those eligible aliens that the 150-day period to complete the NACARA motion to reopen has started to run.

When Is the Deadline to Complete a NACARA Motion To Reopen?

The final motion to reopen rule requires an applicant to submit his or her application and accompanying documentation no later than 150 days after the rule implementing section 203 of NACARA becomes effective. The rule implementing section 203 of NACARA became effective June 21, 1999. Accordingly, all suspension of deportation and special rule cancellation of removal applications and accompanying documentation needed to complete a properly filed NACARA motion to reopen must be filed by (150 days from the June 21, 1999, effective date of INS Rule No. 1915-98, RIN 1115-AF14).

Dated: July 15, 1999.

Attorney General.
