The Government is also reproducing to the defendant the files specified in Defense's September 21, 2020 letter. In order to avoid further difficulties with respect to viewing the files, the Government offers the following instructions:

1. Any .dat, .dvt, and .vol files can be opened and viewed by right-clicking on the file and selecting "Edit with Notepad" or a similar text-viewing program.
2. Any video file can be opened with VLC, which has been included.
3. Accessory files (i.e. .dii, .ami, .cms, etc.) are to be ignored, as they serve no functional purpose besides assisting in the operation of other (i.e. video) files.
4. Any previously flagged files that are not noted here have been converted to PDFs and/or had their file paths shortened to enable viewing.

The Government recognizes that its discovery obligations are ongoing and will promptly produce any additional discoverable material of which it becomes aware. Please do not hesitate to reach out if you have any difficulty accessing these materials or if you wish to arrange a time to review physical items in the FBI's custody.

Very truly yours,
