As prescribed by the Resource Conservation and Recovery Act (Public Law 96-510 Sec. 3002), a detailed chemical and physical analysis must be submitted before we can handle your waste stream. This information is necessary to help us evaluate whether we can safely and economically transport and dispose of your waste in an environmentally sound manner. Please be as complete as possible. If an area is not applicable, mark as such. Should a laboratory analysis be available, please attach it to this form. We can arrange analytical laboratory services, if needed, for an appropriate fee. All information we receive will be held in the strictest confidence to protect your interests. SAMPLE WILL NOT BE PROCESSED UNLESS ALL AREAS OF THIS SHEET ARE PROPERLY FILLED IN. A fee of _____ will be charged for processing this sample.

General Instructions: In order for us to determine whether we can lawfully and safely collect, transport, and use, store, or manufacture products from your material, we will obtain certain information about the chemical and physical properties of the material and its chemical composition. Please be complete in your answers. If your response is "none" or "not available", so indicate. Answers must be printed in ink or typewritten and the completed form must be signed. Please make a copy of this form for your records.
