Justice Management Division

Office of Compliance and Review

Background

In accordance with the Inspector General Act of 1978, as amended (IG Act)¹, the U.S. Department of Justice (“DOJ” or “the Department”) provides the following management report. This report outlines the Department’s actions during the semiannual reporting period ending September 30, 2025, in response to recommendations issued by the Office of Inspector General (OIG) in audit, inspection, and evaluation reports.

This report is organized into three sections:

- **Section 1** provides the status of final action on OIG reports with recommendations that funds be put to better use.
- **Section 2** provides the status of final action on OIG reports with disallowed costs.
- **Section 3** provides the status of final action on OIG reports open for longer than one year where management decisions have been made but final action is not yet complete. This section addresses a reporting requirement that is only applicable to OIG audit reports.

During this semiannual reporting period, DOJ components implemented policy and management changes that resulted in the closure of 86 recommendations in OIG audit reports open for longer than one year.

¹ Inspector General Act of 1978, as amended, 5a U.S. Code § 5.

The term “final decision” means management has evaluated the finding and recommendation and made a decision concerning its response, including actions concluded to be necessary or that no action is necessary. The OIG can question costs for various findings such as, at the time of audit, costs were not supported by adequate documentation.
