

October 2, 2023 Status Update

On September 29, 2023, the parties filed a joint status update, informing Judge Dabney L. Friedrich of the status of discovery. The parties informed Judge Friedrich that the government had provided four productions to the defense and would shortly be providing a fifth, and that it was working on getting additional materials from Scotland and various countries. The defense stated that it had received the discovery to date and was reviewing it.

On October 2, 2023, Judge Friedrich set a **“tentative” status hearing for December 15, 2023, at 1:00 p.m. in Courtroom 14.** At this point, we have no reason to believe that this status date will change, despite its “tentative” status. If it does change, we will notify you as soon as we are able to.
