Assistant Upgrade: [Confidential] MAU additional Q4 opportunity via Assistant Upgrade

- This is the "true" addressable MAU in 2024 - Defined as all Assistant MAU (L28>0) on eligible devices, removes the power users that we are not rolling out to since we don't currently meet their need (e.g. Spotify usage), all countries except for ID/PH where we are already addressing them (but includes the high risk countries like US, JP, AU, EEA+)
- Current conversion rate is [Confidential] for the flow we're testing in LEs
