REPORT OF THE ATTORNEY GENERAL TO THE
CONGRESS OF THE UNITED STATES ON THE
ADMINISTRATION OF THE FOREIGN AGENTS
REGISTRATION ACT OF 1938, AS AMENDED,
FOR THE CALENDAR YEAR 1982

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE
UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED:

I have the honor to report on the administration of the Foreign Agents Registration Act of 1938, as amended, pursuant to Section 11 of the Act (22 U.S.C. 621), which requires the Attorney General from time to time to report to the Congress concerning the administration of the Act, as well as the nature, source and content of political propaganda disseminated or distributed by agents of foreign principals registered under the Act.

It has been the policy of the Department since 1950 to prepare a report each year. This report covers the administration and enforcement of the Foreign Agents Registration Act for the calendar year 1982.

The format of the text of this year's report lists according to geographical area or nationality field all registrants who were registered at any time during the calendar year 1982, and includes the identity of the foreign principal(s), a description of the activities in which the agent engaged, a total figure for monies received, and a description of the political propaganda disseminated.

STATISTICAL SUMMARY

During the calendar year 1982, the Department received 113 new registration statements and terminated 89 registrations, leaving a total of 725 active registrations on file as of December 31, 1982. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interest of the latter's foreign principal filed 749 short-form registration statements under the Act, bringing the present total of active short-form registration statements to 7,230.

In this reporting year, the staff of the Registration Unit reviewed over 1,400 supplemental statements and processed approximately 15,000 pieces of both incoming and outgoing correspondence which involved other government agencies, registrants and the general public. There were 141 agreements with new foreign principals reported by agents currently registered under the Act.

ADMINISTRATION AND ENFORCEMENT

The Registration Unit continued to conduct in-depth inspections of a broad spectrum of registrants pursuant to Section 615 of the Act. As a result of such inspections of books and records, it was determined in several cases that disclosures were inadequate, thereby necessitating the submission of amendments to registration statements.

In a case styled Attorney General v. Irish Northern Aid Committee, 530 F. Supp. 241 (S.D.N.Y. 1981), 668 F.2d 159 (2d Cir. 1982), the Department commenced an action in February 1977 in the United States District Court for the Southern District of New York, against the defendant for failing to make full disclosure of its activities in its statements filed under the Act and for failing to comply with the Act's provisions regarding the dissemination of "political propaganda."

Following our examination of the defendant's documents produced pursuant to Rule 34 of the Federal Rules of Civil Procedure, the Court granted our request to amend the complaint to include the allegation that the defendant has acted as an agent for the Provisional Irish Republican Army. The Department, on April 30, 1980, filed a motion for summary judgment, which the court took under advisement in the latter part of July.

On April 30, 1981, the Court entered a 63 page opinion granting our motion for summary judgment both as to our request for an injunction enjoining the defendant from further violations of the Foreign Agents Registration Act and finding the alleged violations of various constitutional and statutory rights contained in the defendant's counterclaims to be totally unsubstantiated.

Perhaps most significant of the Court's findings is that the defendant acts as the agent of the Irish Republican Army and must register as its agent. The Court also held that the defendant must disclose its relation to The Irish People, a weekly newspaper.

In addition, the Court found that the defendant has failed to report its other activities as required; has failed to properly identify its sub-agents and affiliates; and has repeatedly violated the financial reporting provisions of the Act. The requirements of the Act dealing with "political propaganda" have been ignored continuously by the defendant according to the Court.

The defendant appealed to the Second Circuit Court of Appeals, and on January 5, 1982 the Court of Appeals affirmed the judgment of the District Court granting a permanent injunction against the Committee based on its violations of the Foreign Agents Registration Act of 1938, as amended. In its opinion the appellate court adopted the Department's position regarding the interpretation of a key portion of the Act's definition of "agent of a foreign principal."

The defendant has failed to comply with the terms of the injunction since the denial of its appeal, citing the Fifth Amendment as the basis for its refusal.

In the case of Attorney General v. The Irish People, Inc., 502 F. Supp. 63 (D.D.C. 1980), 684 F.2d 928 (D.C.C. 1982), an action was commenced on August 15, 1976 against the defendant charging it with failure to register as an agent of a foreign principal as required by the Foreign Agents Registration Act. The defendant is the nominal owner and publisher of a nationally distributed weekly newspaper The Irish People. The complaint sought a mandatory injunction requiring the defendant to register and to otherwise comply with the Act. After losing a series

of motions to dismiss, the defendant filed an answer denying the principal allegations of the complaint, raising a series of affirmative defenses, and asserting several counterclaims alleging violations of certain statutory rights. On our motion the Privacy Act counterclaim has been dismissed. The remaining counterclaim alleges illegal electronic surveillance and seeks both monetary and injunctive relief. The United States District Court for the District of Columbia ruled on August 8, 1980 that certain documents to which we had earlier asserted a claim of state secrets privilege, and which the court had held to be privileged, were material to the defense, and must either be produced or the action would be dismissed. The Department filed a motion for reconsideration, based on the court's erroneous application of the principles of criminal law to a civil action and its failure to comply with the Federal Rules of Civil Procedure. The court, without elaboration, denied our motion for reconsideration and granted the defendant's motion to dismiss.

The Department appealed this decision to the United States Court of Appeals for the District of Columbia Circuit where oral argument was heard on October 21, 1981. On July 2, 1982 the Court of Appeals overturned the dismissal and reinstated the complaint, agreeing with our argument that the District Court had erred in finding that the defendant was entitled to pursue the selective prosecution defense in the absence of any demonstration of a selection of the defendant from others similarly situated and an improper motive for the selection. In consequence the defendant had established no right nor need for the privileged material. The Court also agreed that even if the lower court had not erred on this issue, dismissal of our suit was not justified and some alternative should have been fashioned by the District Court, such as in the so-called Socialist Workers Party case, In re Attorney General of the United States.

The defendant timely filed a petition for rehearing and a suggestion for a rehearing en banc of the Court of Appeals judgment. On September 9, 1982 the Court of Appeals entered orders denying, respectively, the Defendant-Appellee's petition for rehearing and suggestion for rehearing en banc. The Defendant has now filed a petition for certiorari with the United States Supreme Court. We have opposed the petition on the basis that it is interlocutory.

Unit personnel continued to conduct field and office conferences in order to assist new registrants in fully meeting their reporting obligations under the Act. The Department also has retained the practice of distributing copies of registration statements and supplements thereto to interested departments and agencies of the Federal Government.

The principal purpose of Congress in enacting the Foreign Agents Registration Act was to ensure that the Government and the people of the United States would be informed of the identity of persons engaging in political activities for or on behalf of foreign governments, foreign political parties, and other foreign principals.

The amendments to the Foreign Agents Registration Act were designed to strengthen the basic purpose of the original Act; i.e., to protect the interests of the United States by requiring complete public disclosure by persons acting for or in the interests of foreign principals where such activities are political in nature. The public disclosure required by the Act permits the Government and the people of the United States to be informed as to the identities and activities of such persons and to be better able to appraise them and the purposes for which they act. These amendments arose in connection with hearings held by the Senate Foreign Relations Committee in its examination

of the interrelationships of nondiplomatic agents with the executive and legislative branches of our Government, as well as with our mass media.

Registration under the Act does not imply recognition by the United States Government of either the existence or legality of the foreign principal, nor does registration indicate approval by the United States Government of the propaganda material disseminated or of the activities of the registered agent.

Respectfully submitted,

William French Smith

Attorney General
