REPORT OF THE ATTORNEY GENERAL TO THE
CONGRESS OF THE UNITED STATES ON THE
ADMINISTRATION OF THE FOREIGN AGENTS
REGISTRATION ACT OF 1938, AS AMENDED,
FOR THE CALENDAR YEAR 1977

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE
UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED:

I have the honor to report on the administration of the Foreign Agents Registration Act of 1938, as amended, pursuant to Section 11 of the Act (22 U.S.C. 621), which requires the Attorney General from time to time to report to the Congress concerning the administration of the Act, as well as the nature, source and content of political propaganda disseminated or distributed by agents of foreign principals registered under the Act.

It has been the policy of the Department since 1950 to prepare a report each year. This report covers the administration and enforcement of the Foreign Agents Registration Act for the calendar year 1977.

This year we are also reporting as a part of the Nationality Index the total amounts of funds reported by registered agents as having been received from their foreign principals. While in some instances the foreign principals may not be government related, in order to maintain consistency all receipts are being listed in this report by country.

STATISTICAL SUMMARY

During the year 1977, the Department received 110 new registration statements and terminated 61 registrations, leaving a total of 631 active registrations on file as of December 31, 1977. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interest of the latter's foreign principal filed 469 short form registration statements under the Act, bringing the present total of short-form registration statements to 12,474, of which 5,372 are active.

In this reporting year, the staff of the Registration Unit reviewed over 1,100 supplemental statements and processed approximately 15,000 pieces of both incoming and outgoing correspondence which involved other government agencies, registrants and the general public. There were 118 agreements with new foreign principals reported by agents already registered under the Act.

ADMINISTRATION AND ENFORCEMENT

The Registration Unit continued to conduct in-depth inspections of a broad spectrum of registrants pursuant to Section 615 of the Act. During the year, 34 such inspections of books and records were conducted by the staff. In a number of cases it was determined that disclosures were inadequate and amendments to registration statements were obtained. However, in several cases, a review of the documents obtained during the inspections is continuing. In some of these cases there appear to be violations of the Act which may warrant the filing of injunctive actions.

One of the most significant of the cases brought during the year, Attorney General v. Casey, Lane & Mittendorf, et al. (Civil Action No. 77-1272), which was filed in the United States District Court for the District of Columbia in July, 1977, alleges the defendants violated the Act by filing false and misleading supplemental registration documents in connection with their representation of the South Africa Sugar Association and the South Africa Foundation. The complaint alleges the defendants acted in concert in willfully concealing from required filings their activities in providing certain members of the United States House of Representatives and congressional aides with money and free overseas travel.

In addition, the Department in Attorney General v. Irish Northern Aid Committee (Civ. 77-708) commenced an action in the United States District Court for the Southern District of New York against the defendant for failing to make full disclosure of its activities in its statements filed under the Act and for failing to comply with the Act's provisions regarding the dissemination of "political propaganda."

In June, 1977, the Department filed an action for injunction in the United States District Court for the District of Columbia in a case styled Attorney General v. Horatio Daniel Lofredo, et al. (Civil Action No. 77-1106) alleging that the defendants had failed to register as required by the Act. The complaint alleges that Lofredo and Olga Talamante as the representatives of the Information Bureau of the Argentine Commission for Human Rights disseminated political propaganda and engaged in other activities intended to influence United States policies toward the Government of Argentina.

These three actions are currently awaiting resolution.

In addition, various pre-trial motions have been argued in the case styled, Attorney General v. The Irish People, Inc. (Civil Action No. 76-1518), United States District Court for the District of Columbia, which seeks a mandatory injunction requiring the defendant to register as an agent of a foreign principal pursuant to Section 612 of the Act and a permanent

injunction enjoining the defendant from further violating the Act. The Irish People, Inc. owns, publishes and distributes a weekly newspaper, The Irish People and allegedly has received approximately \$45,000, free office space, telephone service, as well as the services of officers and members of the Irish Northern Aid Committee, which is registered as the agent of the Northern Aid Committee, Belfast.

In 1977, the Unit filed its brief with the United States Court of Appeals for the District of Columbia Circuit in Attorney General v. Trinidad and Tobago Industrial Development Corporation et al. (No. 76-2126). Defendants appealed the District Court's granting of plaintiff's motion for summary judgment charging them with failing to make timely filings and failing to comply with the labeling and filing requirements of the Act relating to the dissemination of political propaganda.

Further, we continued to conduct field conferences to assist new registrants in fully meeting their reporting obligations under the Act.

The Department also has retained the practice of distributing copies of registration statements and supplements thereto to interested departments and agencies of the Federal Government.

relationship which the two nations have shared, the mutual defense treaty which is in effect, and the great advances that ROC has made in industry, economics and social welfare. Further, the materials leveled charges against the People's Republic of China for human rights violations, political instability and repressive policies.

A considerable interest in developments on the mainland apart from U.S. relations was also exhibited in the registrants' dissemination of articles published there, accounts brought back by visitors and news from other sources reporting conditions that exist and changes that occur, all of which evidence an unfavorable comparison with ROC.

The principal purpose of Congress in enacting the Foreign Agents Registration Act was to insure that the Government and the people of the United States would be informed of the identity of persons engaging in propaganda activities and other activities for or on behalf of foreign governments, foreign political parties, and other foreign principals. To achieve this purpose, Congress requires public disclosure by such persons in order that their statements and actions may be appraised in the light of their associations and activities. The Department of Justice in fulfilling its responsibilities under the Act relies upon its program of inspections pursuant to Section 615 (22 U.S.C. 615), its normal sources of information and upon the investigative efforts of the Federal Bureau of Investigation.

Registration under the Act does not imply recognition by the United States Government either of the de jure existence or legality of the foreign principal, nor does registration indicate approval by the United States Government of the propaganda material disseminated or of the activities of the registered agent.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "William F. Hall", written in a cursive style.

LISTING ACCORDING TO GEOGRAPHICAL AREA OR NATIONALITY
FIELD OF REGISTRANTS WHOSE STATEMENTS WERE IN
ACTIVE STATUS AT ANY TIME DURING
CALENDAR YEAR 1977

(T) Indicates termination of entire
registration during 1977

(t) Indicates termination of a single
foreign principal in a given
geographical area during 1977

The dollar figure to the right of the foreign country represents the total amount of money received in the United States in furtherance of the agency purpose by agents working on behalf of the foreign principal. In some cases the total receipts shown may not include funds received for which a supplemental statement has not yet been filed.

The list is compiled alphabetically by country; however, it necessarily will include foreign principals which have no association with the government.

Column on left lists the registrant and registration number, column on right lists the foreign principal, and phrases in parentheses denote nature of agency relationship.
