Dear Messrs. Chairmen:

This report is submitted in accordance with section 406 of the Foreign Intelligence Surveillance Act of 1978 (the "Act"), as amended, 50 U.S.C. § 1801 *et seq.* It provides information regarding applications to use pen register and/or trap and trace devices (PR/TT) conducted pursuant to the Act during the period from January 1, through June 30, 2019.

During this reporting period, the Government filed ten applications¹ with the Foreign Intelligence Surveillance Court (FISC) seeking authorization for the FBI to use PR/TT devices. The FISC approved all ten PR/TT applications filed during the reporting period. The FISC did not deny in whole, or in part, any PR/TT applications during the reporting period. The FISC substantively modified two of the proposed orders submitted to the FISC during the period covered by this report.²

¹ In keeping with the Department's historical reporting practice, the number of applications listed in this report refers to applications that were filed in signed, final form pursuant to Rule 9(b) of the Foreign Intelligence Surveillance Court Rules of Procedure. A "denial" refers to a judge's formal denial of any such an application; it does not include a proposed application submitted pursuant to Rule 9(a) of the Foreign Intelligence Surveillance Court Rules of Procedure for which the government did not subsequently submit a signed, final application pursuant to Rule 9(b).

² A "modification" includes any substantive disparity between the authority requested by the Government in a final application filed pursuant to Rule 9(b) and the authority granted by the FISC. It does not include changes made by the government after the submission of a proposed application submitted pursuant to Rule 9(a).
