Two provider alerts have been posted to the Portal. The first involves a California pharmacy and compounding center engaged in a marketing scheme in which pharmacy representatives distributed fliers that misrepresented certain compounds, including scar gel and topical pain medications, as samples and not prescriptions. The pharmacy waived high copayments and told patients/providers that insurance paid the total cost.

In the second alert, another California pharmacy was altering patients' diagnoses in order to get prior authorizations for fentanyl-based prescriptions for cancer pain. Records indicated that most of the patients had chronic pain or were addicts but did not have cancer.

To view the alerts, follow these steps:

- 2. Click on "Collaboration Space."
- 3. Use the left hand tool bar to select "HFPP Alerts."

Provider Alerts Posted

http://hfpp-portal.org/ < http://www.mmsend55.com/link.cfm? r=2490073842&sid=93231802&m=12495192&u=MITRE&j=32993529&s=http://hfpp-portal.org/>

Two new provider alerts have been posted to the HFPP portal. The first involves an orthopedic supply company suspected of up-coding an electric heating pad (E0215) as a Water Circulating Unit with Pump (E0217). In addition, the company is suspected of unbundling by separately charging for the water circulating systems and water circulating pads. Another TIN was also billing this identical pattern. The second alert focuses on a laboratory billing for drug screenings of members who have not seen and do not live close to the referring providers.

To view the alerts, follow these steps:

- 1. Navigate to http://hfpp-portal.org/ http://www.mmsend55.com/link.cfm? r=2490073842&sid=93231803&m=12495192&u=MITRE&j=32993529&s=http://hfpp-portal.org/> and log in.

Provider Alerts Posted

http://hfpp-portal.org/ <http://gomarketing.hms.com/TgyNE0301000tMB20S6QyZ0>

Two provider alerts have been posted to the Portal.

The first alert indicates a possible Stark Law violation. Data identified a physician with a concerning pattern of opioid distribution. Research found the physician did not disclose his ownership in the pharmacy where many of the prescriptions are being filled.

In the second alert, a pharmacy was identified as being involved with bulk compound creation, and is actually running two distinct pharmacy entities under a single pharmacy credentialing packet.

To view the alerts, follow these steps:

- 1. Navigate to http://hfpp-portal.org/ http://gomarketing.hms.com/TgyNE0301000tMB20S6QyZ0 and log in.
- 2. Click on "Collaboration Space."

Provider Alerts Posted

http://hfpp-portal.org/ <http://gomarketing.hms.com/kN0oS0y00R302MyQt10w60Z>

Three provider alerts are now posted to the HFPP Portal.

The first alert involves disputes for services not rendered. An investigation disclosed that the provider, a periodontist, billed for services not rendered under Current Dental Terminology (CDT) D0180 (Comprehensive periodontal evaluation - new or established patient) and 4000 series periodontal codes. Referrals have been sent to the OIG, DOI, and Florida Department of Health Medical Quality Assurance department.

The second alert involves prescription fraud. A review of records identified medication shortages where no purchasing records were identified. Additionally, discrepancies included invalid signatures, incorrect origin codes, prescriber IDs, and written dates.

The third alert involves prescription fraud. A review of records identified discrepancies in purchasing records. The discrepancies included missing prescriptions, signature logs, and exceeding authorized refills. When requested, the wholesaler was unable to verify supporting documents.

To view the alerts, follow these steps:

- 1. Navigate to http://hfpp-portal.org/ http://gomarketing.hms.com/kN0oS0y00R302MyQt10w60Z and log in.
- 2. Click on "Collaboration Space."

Two new provider alerts have been posted to the HFPP Portal. In the first provider alert, a California acupuncture clinic and individual acupuncturist are improperly billing EM code 99213 with every clinic visit and attaching modifier 25 to each visit.

The other provider alert involves a California clinic that billed evaluation codes on a patient for every day of each month, even though the patient visited the clinic at the most only four days during any given month. The provider often billed these evaluation codes without supplies or drugs. million.

To view the alerts, follow these steps:

- 2. Click on "Collaboration Space."
- 3. Use the left hand tool bar to select "HFPP Alerts."

Provider Alerts Posted

http://hfpp-portal.org/ <http://gomarketing.hms.com/ey0tXZ02000MNJ0Q61HS30y>

Three provider alerts are now posted to the HFPP Portal.

The first alert involves the analysis of a school therapist counselor who billed for services and supplies not rendered. Recipients stated that no services were provided during school hours and the provider pled guilty to fraud.

The second alert involves services being rendered by unlicensed individuals. During interviews with recipients, the unlicensed individuals were identified as staff nurses.

The third alert involves unbundling of services regarding pneumatic compression devices with Healthcare Procedure Coding System (HCPCS) codes E0650 through E0676 that are inclusive with the facility charges.

To view the alerts, follow these steps:

- 1. Navigate to http://hfpp-portal.org/ http://gomarketing.hms.com/ey0tXZ02000MNJ0Q61HS30y and log in.

Provider Alerts Posted

http://hfpp-portal.org/ http://gomarketing.hms.com/v06t0yQe0ySZN351M02Q000>

Two provider alerts are now posted to the HFPP Portal.

The first alert involves non-covered services where a company is marketing a device as meeting the specifications for CPT 88361; however the device is experimental and investigational. The device is being presented to gastroenterologists as an alternative to approved methods of upper GI endoscopic forceps biopsy. Kickbacks are paid to the physicians for using the device. Exposure was over \$3 million for this provider, including Medicare payments when detected. Other providers were found to be billing same/similar services and cases were also opened. Clinical policies were updated and system edits were implemented to deny services billed.

The second alert involves misrepresentations of medical records where companies are billing for services performed by other entities. The provider is a billing company and not the actual servicing provider.

To view the alerts, follow these steps:

- 1. Navigate to http://hfpp-portal.org/ http://gomarketing.hms.com/v06t0yQe0ySZN351M02Q000 and log in.
- 2. Click on "Collaboration Space."

Provider Alert Posted

The Centers for Medicare & Medicaid Services (CMS) has been made aware of information involving a pharmacist and owner of two pharmacies billing Medicare for higher reimbursed drugs for compounding but using lower reimbursed drugs (bulk powder) to make the compound product. The owner and pharmacist, (b) (6) was arrested and charged on February 16, 2017. He allegedly billed for Lidocaine ointment and Ketoprofen tablets to make the compound, while actually using bulk powder form.

We are alerting you to this information so that you can take appropriate measures regarding these pharmacies and the Medicare Part C and Part D benefits you offer. These measures, in particular, should be focused on the appropriate detection and identification of fraud, waste, and abuse as required under Medicare Part C and Part D. Additional information, such as the pharmacy names, practice location, and National Provider Identification (NPI) numbers can be found below.

If you identify egregious billings from these pharmacies, please contact Health Integrity, CMS' National Benefit Integrity Medicare Drug Integrity Contractor (NBI MEDIC) or CMS. Any questions you may have on this subject should be directed to your CMS Account Manager or (b) (6) of the National Benefit Integrity MEDIC at (b) (6) The NBI MEDIC may also be reached at 1-877-7SAFERX (1-877-7(2-3379).

	Dear HFPP Members, On January 19th, the Healthcare
	Fraud Prevention Partnership (HFPP) held a successful Regional Information Sharing Session at Kaiser Permanente in Pasadena California. During this session, 49 participants from across 15 federal, state, public, and private organizations networked and shared information on recent investigative activities, cases, and fraud schemes. Attendees discussed a wide range of cases and areas of focus. Partners approved the posting of 5 Provider Alerts and 2 Fraud Scheme Notifications to the HFPP Portal.
	To learn more, follow the instructions below:
January 24, 2018	 To access the Provider Alerts, click on the following ID numbers: 70351, 70355, 70356, 70358, 70359 To access the Fraud Scheme/Code Alerts, click on the following ID numbers: 70353, 70354
	Thank you to all the attendees and to Kaiser Permanente for hosting a successful event! Your dedication and
Quickly access the portal by clicking the icon below:	engagement enable us to join forces to combat and prevent healthcare fraud, waste, and abuse across the healthcare spectrum.
	Please continue to watch your inbox

and the HFPP Portal for information and registration details about upcoming HFPP events.

Is your organization interested in hosting an HFPP event? Do you have an alert to share with the Partnership? If so, send an email to the Trusted Third Party at ttp@csra.com.

THE FOLLOWING DISCLAIMER APPLIES: All Healthcare Fraud Prevention Partnership (HFPP) communications and activities are purely voluntary. All HFPP activities including all committees and the Executive Board, are to be used solely as venues for discussion whereby individual Partners can voluntarily share facts, information, or individual input. No group consensus, advice, recommendations, policy-making, or decision-making will be sought or performed as a result of HFPP activities. The Secretary and the Attorney General or their designees will make final policies or other decisions.

Subject: HFPP Summary Report Announcement for Studies 17.2 and 17.11

Date: Thu, 20 Sep 2018 08:58:12 -0400

Importance: Normal

Having trouble viewing this mail? Click here to view it in your browser. Make sure that you always get our messages: Add ttp@csra.com to your contacts.

Dear HFPP Members,

The Trusted Third Party (TTP) is pleased to inform you that the Summary Reports for studies 17.2 Deactivated Providers (5th iteration, identified as 17.2D), and 17.11 Deactivated Referring Providers (3rd iteration, identified as 17.11B), have been uploaded to the HFPP Portal for review. Both studies were closed, effective 9/10/2018 and 9/20/2018, respectively.

- Study 17.2D analyzed rendering providers deactivated prior to date of service.
- Study 17.11B analyzed referring providers deactivated at least 12 months prior to the date of service.

To download these reports:

- 1. Log onto the HFPP Portal
- 2. From the left hand navigation menu select **Studies**
- 3. Click ID 47168 to access Study 17.2 (the report will identify the iteration)
- 4. Click ID 66052 to access Study 17.11 (the report will identify the iteration)
- 5. Under Quick Links, click View Summary Results

These studies have been reopened as recurring studies. On a quarterly basis, the TTP will publish the list of NPIs meeting each study's criteria for participating Partners.

If your organization would like to participate in HFPP studies and does not have a signed Data Sharing Agreement (DSA), please contact Alex Olson at (b) (6)

Sincerely,

The Trusted Third Party

We welcome your comments and feedback on the results of these studies. Please send an email to the TTP at ttp@csra.com, or to the Studies Manager, Tim Carrico, at (b) (6)

THE FOLLOWING DISCLAIMER APPLIES: All Healthcare Fraud Prevention Partnership (HFPP) communications and activities are purely voluntary. New Alerts Posted: August 28, 2019

Partners have posted three new Pharmacy fraud alerts to the HFPP Portal:

The first two alerts are based on investigations that stem from information obtained from the CMS February 2019 Quarterly Drug Trend Analysis Memo. The memo identified Providers as inappropriately prescribing opioids. Further analysis revealed that the Providers are outliers for high opioid prescribing. Which can place patients at an increased risk of overdose.

Access the alerts by clicking the Alert ID #s below:

Alert ID: 156129

Alert ID: 156458

The third alert is based on a proactive review of the CMS Predictive Learning Analytics Tracking Outcomes (PLATO) tool, that identified a Provider as an outlier for paid Serostim pharmacy claims. Serostim is used to treat HIV patients and has been identified by the Drug Enforcement Administration (DEA) as a drug that is used off-label for anti-aging to improve athletic performance. The in-depth review identified possible off-label prescribing and use of Serostim.

New Alert Posted June 19, 2019:

Dear HFPP Member,

An out-of-network pharmacy contacted multiple physicians via fax requesting authorization for certificates of medical necessity for diabetes supplies. Further analysis revealed that the medications were not requested by the beneficiaries. It is unknown as to how the pharmacy obtained the beneficiary's personally identifiable information (PII) or the physician's information.

Provider Alert Posted - October 10, 2017

An investigation identified potential pharmacy fraud related to inappropriate billing of medication, including price gouging and redundant dispensing fees, in violation of the Medicare Advantage and Part D Fraud Handbook. The pharmacy was given 30 days (from September 13, 2017) to appeal audit findings. An entry was made in the National Health Care Anti-Fraud Association's (NHCAA) online Special Investigation Resource and Intelligence System (SIRIS).

New Alert Posted August 1, 2019:

Dear HFPP Member,

An investigation conducted by Kaiser Permanente's National Fraud Control Unit, came about due to the release of an August 10, 2018 memo released by The Centers for Medicare and Medicaid Services (CMS) entitled "Medicare Part D Coverage of Multi-Ingredient Compounds,". This memo initiated an investigation that identified pharmacy billing discrepancies. The analysis revealed that a long-term care pharmacy was an outlier for compound prescribing. The outlier was found in four prescription Drug Event claims. This investigation lead to the recovery of over \$43,000 in overpayments.

Provider Alert Posted

An investigation identified laboratory fraud related to inappropriate prescribing and billing of medication. Information from the July 2017 CMS Release Medicare Strike Force Takedown and a review of claims revealed that 23 laboratory claims were paid for one Medicare beneficiary. Further investigation confirmed that claims were submitted on the same date of service and deemed unnecessary since the patient was not prescribed the medications being tested.

Information regarding the inappropriately paid claims was provided to the following sources to assist in the indictment: National Benefit Integrity Medicare Drug Integrity Contractor (NBI MEDIC), CMS Predictive Learning Analytics Tracking Outcomes tool (PLATO), and National Health Care Anti-Fraud Association's (NHCAA) online Special Investigation Resource and Intelligence System (SIRIS).

To learn more, access the <u>HFPP Portal</u> and follow the instructions below:

Three NEW HFPP Fraud Alerts Posted to the Portal August 3, 2017

Dear HFPP Members,

We are pleased to announce that three additional provider/fraud scheme alerts have been posted to the Healthcare Fraud Prevention Partnership (HFPP) Portal.

These three cases were discussed during the July 26th Regional Information Sharing Session at HMS Headquarters in Irving, Texas, and can be accessed by following the instructions below:

- 1. Log into the HFPP Portal
- 2. Click "Partner to Partner Sharing" from the left-hand menu
- 3. Click "Provider Alerts" and then on the following ID numbers: 61615
- 4. Click "Fraud Scheme/Code Alerts" and then on the following ID numbers: 61605, 61613

Do you have an alert to share with other HFPP members? You can post them directly on the HFPP Portal or send them directly to the Trusted Third Party at ttp@csra.com.

We appreciate your continued dedication to the HFPP!

THE FOLLOWING DISCLAIMER APPLIES: All Healthcare Fraud Prevention Partnership (HFPP) communications and activities are purely voluntary. All HFPP activities, including all committees and the Executive Board, are to be used solely as venues for discussion whereby individual Partners can voluntarily share facts, information, or individual input. No group consensus, advice, recommendations, policy-making, or decision-making will be sought or performed as a result of HFPP activities. The Secretary and the Attorney General or their designees will make final policies or other decisions.

Subject: Provider Alert Posted: December 18, 2018

Date: Tue, 18 Dec 2018 18:59:19 +0000

Importance: Normal

New Alert Posted December 18, 2018:

Dear HFPP Member,

The HHS Office of Inspector General (OIG) is asking all Qualifying Health Plans to determine if identified suspect providers/pharmacies have:

- Sent/received correspondence or education regarding any of the providers' opioid related prescribing/dispensing habits
- Conducted medical records review regarding any of the providers' opioid related prescribing/dispensing habits
- Informed any of the providers that their patients might be doctor shopping
- Performed audits of the pharmacies

More information on the request and how to contact the OIG is located on the HFPP Portal.

Subject: Provider Alerts Posted: April 2, 2019 **Date:** Tue, 2 Apr 2019 14:59:21 +0000

Importance: Normal

New Alerts Posted: April 2, 2019

A laboratory is suspected of being an intermediary between nationwide medical providers and out-of-network independent laboratories, facilitating fraudulent claims submissions through unrelated in-network providers with the intent to collect payment for non-rendered services. Medical records confirm that multiple laboratories are performing the drug tests, not the clinics in which the providers are affiliated. The providers were referred to law enforcement and have been placed on pre-payment review.

Access this alert by clicking the Alert ID # below:

Alert ID: 127659

A medical center received multiple faxes from a specialty pharmacy requesting prescriptions which are potentially fraudulent as both the beneficiary and their physicians did not request the medications. Additionally, the faxes contained protected health information and it is unknown how the pharmacy obtained this information. The Pharmacy was identified as high-risk in 2018.

Importance: Normal

New Alerts Posted January 14, 2019:

Dear HFPP Member,

An investigation revealed billing irregularities for prescriptions authorized by physicians under the <u>HealthRight Telemedicine Scheme</u>. In addition, claims analysis showed a pattern of telemedicine providers prescribing high-cost topical creams to their patients.
