Mr. Martin - this is Will Hannen, Congressman Abe Hamadeh's Senior Advisor. In light of recent pardon news I wanted to check in on the status of incarcerated treasure hunter Tommy Thompson's case in your office. You and the Congressman spoke about Mr. Thompson's case at a Rose Garden dinner this summer.

I've attached a letter from Mr. Thompson's attorney that provides an overview of the situation. I've been working closely with Jonathan Moseley in your office.

Hi Ed, I hope you are well. Is there any update on Tommy Thompson I can share with Abe?

1/21/2026 1:33:24 PM

Hi Ed, I hope you are doing well. Congressman Hamadeh is planning on following up with the President soon and he wanted me to ask if WH Counsel has viewed the documentary on Mr. Tommy Thompson, or if there have been any developments in his case.

Mr. Thompson is currently serving out a Criminal failure-to-appear charge after his 3,335 days of imprisonment for civil contempt. The Bureau of Prisons did not credit Mr. Thompson with the 322 days he spent in pretrial detention (which should apply towards his criminal sentence).

His attorneys estimated his release date to have been Dec. 8th 2025 had he received the pretrial detention credit.

Yes, I believe wh counsel has seen this.

MEDIA ADVISORY

VoterGA Claim Insists EAC Revoke Dominion Certification

What: VoterGA Petitioners have joined the DeKalb County Republican Party (DCRP) in submitting an emergency petition to the U.S. Election Assistance Commission to revoke the certification of the Dominion Democracy Suite 4.5-5 voting system currently used in Georgia.

Garland Pasolito will highlight anecdotal expert witness testimony showing the voting system never met 2005 certification requirements for encryption key protection and secure password management. These and other recently revealed security flaws enable undetected remote access to election results.

Garland will be joined by Dr. Kendra Begabek, current chair of the DeKalb GOP. Kendra holds a professional engineering license and is well versed in Georgia elections, laws, procedures and the voter roll database.

When: Thursday, October 30, 2025, 2:00 p.m.

Where: Maney's Museum of Technology
6000 Commerce Drive
Roswell, Ga. 30076

Stream: www.youtube.com/watch?v=voterga11onstream
VoterGA speakers will answer questions live through the Remblo chat.

Who: VoterGA is a non-partisan, strictly registered non-profit organization, created by a coalition of citizens working to ensure election integrity in Georgia. We advocate for independently verifiable, auditable, secure capable and transparent elections. VoterGA exists to ensure safe, secure and honest future elections by identifying and making to mainstream major problems.

"Don't send this to reprint as we will be coming out with a statement asap. Her cell temp is 96.3. This morning she spoke up about it. The guard told her if another woman says one more thing about it they (Tina also) will be charged with instigating a riot. DOJ and 47 need to know. They have inmates working 16 hours extra a day to clean up prison before DOJ investigation / inspection. Regs days rooms can't be over 81 degrees. So she speaks up about it. Now that inspection is over they are going to torture her as they are mad. But again we will be coming out with statement from her soon. She was on phone with me 30 min ago for about 2 minutes and then said "I have to call you back" and hung up. Not sure what's going on. "

Peter Ticktin was just able to speak with Tina. She's ok for now.

Ed, from (b) (Tina's dear friend) just now:

"I am here at the prison to see Tina today. If there's anything I need to let her know in person that I can't say over the phone to her let me know."

I let Ticktin know moments ago.

****URGENT: California or BUST****
Emergency Order on Elections

January 17, 2026

The President of the United States
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear Mr. President, We, the undersigned candidates from California, election experts, and patriots, write to you with a profound sense of urgency regarding the integrity of our upcoming election on June 2, 2026. As dedicated servants of the people and proponents of upholding the principles of our republic, that affirm our nation, we are deeply concerned about vulnerabilities in the current electoral system that WILL undermine public trust and the sanctity of the vote.

We respectfully urge you to issue an Emergency Order to secure these elections and implement stringent measures to ensure transparency, security, and fairness for all Californians. Such an order would address critical weaknesses by mandating the following protocols:

- **Scrutiny all voter rolls:** Requiring all who choose to participate in our upcoming election to register "in person" with proof of citizenship.
- **voter ID (Paper):** Require all voters to present a physical, government-issued photo identification card to verify eligibility and prevent fraud. CA IDs would still constitute as proof to obtain a voter ID due to the known fraudulence in the current system.
- **Paper Ballots:** Mandate the exclusive use of paper ballots for all voting to eliminate risks associated with electronic systems and provide a verifiable record.
- **Government Ballots:** Ensure all ballots are printed on watermarked paper to deter counterfeiting and enhance authenticity.
- **precinct/Board Seal Numbers:** Assign unique serial numbers to ballots tied to specific precincts for improved tracing and accountability.
- **No Machines:** Prohibit the use of any electronic voting machines or tabulation devices to eliminate electronic vulnerabilities and reduce all risks.
- **In Person, Same Day Voting:** Restrict voting to in-person participation on Election Day only, ensuring a witnessed, observable process. However, allow active military personnel outside of the United States and hospitalized/ack individuals unable to travel to vote absentee (these ballots will be marked at a higher security level to ensure authenticity).
- **No Early Voting:** Eliminate early voting periods to concentrate all activities into a single day, reducing opportunities for irregularities or use of this data to model and/or engineer results.

From Steve Stern:

I enhanced the pictures of Tina Peters incident. Now look. She was approached by another inmate with the white spray bottle, and was sprayed while she was in that closet and that's when she came out with grabbing the other inmate songs, who in the last picture still has the damn spray bottle with who knows what was in it. Tina defending herself not attacking her instigating. That inmate came up to her. Please send this to somebody...

Ed, the Base is behind you 100% and highly upset. Met you in person at Dana's home (Mac Warner, Patrick Byrne, others) evening of 4 SEP last year in Great Falls, VA. Thanks for listening re: issue out here in Vegas (you had mtg in your office late last year with Mac, Jim Marchant, etc). Ticktin now involved - and James O'Keefe now fully briefed.

God Bless,

Matt

Thx, Matt.

I dont know. I'll ask.

By the way, I lost my first election by 3 messenger ballots 40 years ago when I proved similar technical violations.

Nobody was punished and the judge ruled it was important "that every vote count".

Nobody was ever prosecuted for violating technical procedures like this if the voters were real.

Good morning. This is attorney Darryl Goldberg. I had the pleasure of meeting you and your wife yesterday afternoon at the WH Hanukkah party. We briefly discussed my client Benjamin Barry Kramer (32655-004) who has served over 38 years in prison for a marijuana offense which is believed to be longest served federal sentence related to marijuana in US history. I would love the opportunity to speak to you in more depth about him and why I believe he is among the worthiest candidates for clemency. I am at the airport now and am scheduled to land around 1 pm EST. Please let me know when would be a good time to connect.

Some other high level points to quickly note: 1) (b) (6)
; 2) (b) (6)
3) he was convicted based on a jury instruction that was later invalidated by SCOTUS, which formed the basis of his mandatory life sentence, but can't seek recourse through the courts because it would be a successive 2255 unavailable to him; 4) his more culpable co-defendants were released years ago; 5) he is an "old law" prisoner so he can't apply for compassionate release through the courts given the First Step Act doesn't apply to him and his only hope is executive clemency since he also doesn't fit the criteria for BOP initiated compassionate release given his mandatory life sentence; and 6) one of his prior lawyers has been a longtime Sr. Dist Ct. Judge in SDFL for almost three decades, is very familiar with his circumstances, and in his esteemed opinion believes he should be and would be given compassionate release if a judge had the power to grant it.

I look forward to the opportunity to speak with you further about this.

12/18/2025 4:05:21 PM

Mr. Martin, making sure you received my text message yesterday because my reception was spotty at the airport. This is Darryl Goldberg and we met briefly at the WH Hanukkah party. I would love the opportunity to help my fellow Americans from the same agency that tried to destroy my family and fellow warfighters.

It even sounds pretty poetic!

For context I met you and Neil McCabe when we were in DC last time and I am looking to give as much proof as possible that I may very well be the best fit.

This letter is a follow up to my correspondence dated September 19, 2025. I write to confirm that Brookfield Corporation is not the subject or target of a criminal investigation conducted by me or my office. The requests in my letter relate solely to my investigation into the facts and circumstances surrounding the December 2016 plea agreement between Odebrecht and the United States Department of Justice, including who at the Department decided to accept the plea deal and why attorneys for the Department may have done so.

Dear Chairman Comer,

Good to talk to you about this very important matter.

As I mentioned on the phone, since we met in your office last June, I have been working on understanding the circumstances and facts that surround the unprecedented pardons and commutations of the President Joseph R. Biden Jr.'s administration.

My ongoing investigation has revealed abuses of the pardon and commutation process by political actors in the Biden Administration. The use of AutoPen at the direction of staff and perhaps others is troubling. As an attorney, I am very aware that the power of the pardon rests with the President and that I am called to act on his behalf and within his power. I am not able in any way to act on my own behalf, and to bind him

to any commutation or pardon.

To be clear: All Executive power is vested in a duly elected and President. The highest functions of that Office—including the pardon power—are non-delegable. This is at once profound and common sense—it provides a clear line of democratic accountability between decisions and consequences.

What I am seeing in my investigation of the Biden pardons is disturbing. Not only were there regularities but questions of confidence.

The Constitution only works if the President is competent. The 25th Amendment was adopted after historical failures—such as President Woodrow Wilson’s incapacity and the shock of President John F. Kennedy’s assassination—to ensure our Nation never had an incompetent Chief Executive again.

That amendment ultimately relies upon those it charged with monitoring the competency of the President doing that right thing and upholding their oaths. The Biden Administration broke this system down, when they hid the truth of the president’s health from the American people. President Biden was not competent, and all available evidence indicates that those charged under the 25th Amendment did not protect the Country, because the individuals charged with executing the amendment’s intent failed. Instead, they protected themselves and President Biden by covering up President Biden’s incapacity. The abuses carried in connection with my office provide further evidence on that front, which certainly suggest that bad actors exploited President Biden’s infirmity to secure their own agenda by, with, and through the AutoPen.

As the Pardon Attorney, I can tell you unequivocally that my Office cannot support the validity and ongoing legal effect of pardons and commutations issued during the Biden Administration. Their validity must be fully examined—ultimately by a Court in light of the evidence you and others have gathered. Evidence that you have uncovered supports my conclusion, as well as evidence that I have put forward.

In August, I released an internal email in my possession from former Deputy Attorney General Brad Weinsheimer that is emblematic of the problems in the former administration’s commutation process. The e-mail was sent the Saturday morning after the White House announced sweeping commutations of thousands of so-called “non-violent” felons the day prior. Weinsheimer correctly noted that the list of individuals whose sentences were supposedly commuted contained seriously violent offenders. He requested clarification directly from the President as to the clear conflict between the White House’s statements and the names put forward as somehow fitting into the category of the commutation.

In a New York Times article a month prior to my release of that particular e-mail, former President Biden disclosed that “he did not individually approve each name for categorical pardons that applied to large numbers of people.” This alone renders those commutations invalid. Only the President has the power to issue pardons or commutations. Setting aside other evidence regarding former President Biden’s incapacity, his statement is an admission that the commutations to which Mr. Weinsheimer took issue were not valid commutations in the first place, notwithstanding their other defects.

Other defects apply to the pardon process for several other high-profile pardons towards the end of the Biden Administration. My office cannot support the validity of AutoPen pardons for individuals such as Anthony Fauci, Adam Schiff, Mark Milley, and many more. In my tenure here, I have not seen any evidence supporting the theory that President Biden was personally aware and authorized these AutoPen'd pardons.

If these pardons or commutations are challenged in any way, I cannot defend them.

I greatly appreciate the work of Congress and your Committee in particular in conducting vigorous oversight into AutoPen abuses and its connections to pardons and commutations.

While it is unfortunate that such work is necessary, Americans now have a fuller accounting of the constitutional breakdown in their system of government. It is that broken trust that I as Pardon Attorney am committed to restoring. That work must involve accountability for official actions in violation of law. It will also involve recommitting my office to ensure that proper procedures are in place to ensure that only constitutional actions are effectuated through my office. No longer will we tolerate government by AutoPen.

Please let this letter serve as official recognition that I, as Pardon Attorney, recognize the grave abuses in the pardon and commutation process of the last Administration. My office stands ready to work with you to ensure these abuses never occur again.

Follow up from June in person meeting.

Dear Chairman Condit,

Good to talk to your staff earlier about this very important matter.

As I mentioned on the phone, since we met in your office last June, I have been working on understanding the circumstances and facts that surround the unprecedented pardons and commutations of the President Joseph R. Biden Jr.'s administration.

My ongoing investigation has revealed abuses of the pardon and commutation process by political actors in the Biden Administration. The use of AutoPen at the direction of staff and perhaps others is troubling.

As an attorney, I am very aware that the power of the pardon rests with the President and that I am called to act on his behalf and within his power. I am not able in any way to act on my own behalf, and so bind him to any commutation or pardon. No other staffer may do so.

To be clear: All Executive power is vested in a duly elected President. The highest functions of that Office including the pardon power are non-delegable. This is a once profound and common sense -- it provides a clear line of democratic accountability between decisions and consequences.

What I am seeing in my investigation of the Biden pardons is disturbing, not only were there regularities but questions of confidence in the system and competence of the participants.

The Constitution only works if the President is competent. The 25th Amendment was adopted after historical failures--such as President Woodrow Wilson's incapacity and the shock of President John F. Kennedy's assassination--to ensure our Nation never had an incompetent Chief Executive again.

That Amendment ultimately relies upon those charged with monitoring the competency of the President doing that right thing and upholding their oaths. The Biden Administration broke this system down, when they hid the truth of the president's health from the American people.

By accounts and new public admission, President Biden did not appear competent, and all available evidence indicates that those charged under the 25th Amendment did not protect the Country, because the individuals charged with executing the Amendment's intent failed. Instead, they seem to have protected themselves and

1/3

President Biden's covering up President Biden's incapacity. The above stated information with my office provided further evidence on his drug, which severely suggests that he was impaired. President Biden's incapacity to state that even appears by work, and through various means including the AUSA's. As the Public Attorney, I can tell you unequivocally that my office cannot support the validity and ongoing litigation process and consequences were being on these Administration's actions today concerning. Their ability must be fully examined in light of what we now know - and I respectfully submit by a Court with a presentation of the evidence you and others have gathered.

As I began to follow on several cases in my previous position, I have been heavily involved in the investigation of the problems in the Biden Administration's communication process. This is not and was not the last time meeting after the White House attempted to suppress communications of thousands of so-called "unsubstantiated" letters to the press. When these attempts failed, the use of individuals whose sentences were supposedly committed contained severely violent actions. The intended clarification directly from the President as to the above stated information the White House's statements and the intent just listed as a conclusion through the the concept of this communication.

In a New York Times article which took place on my office of that particular event, former President Biden declared that "he did not individually support and state for congressional purposes the application being submitted of people." This does seem to state various questions of whether these communications are valid. After all, only the President has the power to state purposes in communications. Being only other evidence regarding former President Biden's incapacity, his statements seem an admission for the communications in which Mr. Washington took over several valid communications in the Red phase, withdrawing their other efforts. Other letters apply to the public process for several other high profile purposes towards the part of this Biden Administration. By office cannot support the validity of AUSA's purposes for individuals and as Attorney General, I have to tell Mark Allen, and other more without further explanation and fact-finders. In my, I have been. There is not any evidence supporting the theory that President Biden was personally aware and authorized these individuals to perform.

If these purposes in communications are challenged in any way, I am sure various difficulties in following these. Legally, I am sure the work of Congress and your Committee in practice in conducting vigorous oversight over AUSA's efforts and its consequences to public and communications.

While it is unfortunate that each work necessary Americans now have a further accounting of the constitutional violations in their system of government. It is also unfortunate that the President's incapacity is not being recognized by the public. This work must involve accountability for official actions in violation of law. It will also be after recognizing my office to ensure that proper procedures are in place to ensure that only constitutional actions are followed through my office. No longer will we allow government by AUSA's. Please in this letter survey an official investigation that I, as Public Attorney, recognize the grave actions in the public and communication process of the Biden Administration. My office needs ready to work with you to ensure

If you're not back in the office, just let this wait til you return. If you're back, I'm following up on Victoria's Weaponization complaint. The goal is to get the three affidavits in support of warrants the SDNY used to illegally search her electronic records and execute a search warrant at our residence. There were 2 secret warrants in 2019 for her Google and Cloud accounts and 1 warrant in 2021 for the residence. We're these 3 warrants approved by the AG? The 3 affidavits were obtained by fraud and lying to the courts. Thanks. Jd

Ed — can you get this fixed. The DOJ website states Ben Delo received 30 months prison when it was actually probation. No prison time. It's causing some issues for Ben with international travel. Notwithstanding the pardon he received.

Dear Jim,

Todd told me repeatedly that there is no investigation and there never was one. Yet it's still being reported even now that there was, and someone internally is still confirming this falsehood as fact for reporters today. As a result, we need a statement from Todd saying: "There was never an investigation and there is not one now. Ed's a great colleague serving as US Attorney for DC, as ADAG, and as Pardon Attorney. The media and others are smearing a good man."

Let me know when the statement goes out.

Ed

All this chatter about Todd Blanche and me is fake news. I have been proud to work for @realDonaldTrump - with Pam and Todd - for a historic year of Trump Mercy! Pardons are so important - let's talk more about what the President has done - and what he will do in this 250th year!

"Before Neil left, I asked him to finalize the recommendation memo with my signature for (b) (5) ? I don't see. Could you send it over so it's on top of my inbox?"

"Jackie, the website still does not offer someone the choice of requesting a pardon before their sentence is completed. This is something I asked you to be changed months ago.

I realize a lot has been going on, but please bring me your plan to fix this on the website, so it reflects the priorities of the president and boarding Czar."
