OMB Implementation Approach

• Currently planning its Evidence Act implementation approach
• Recognize that the Act contains many near-term deadlines and understand that some agencies are eager to begin addressing them
• Recognize that the Act overlaps with ongoing initiatives and needs to involve multiple OMB and agency offices and activities
• Prioritizing an integrated implementation, both across OMB offices and across ongoing OMB initiatives, such as the Federal Data Strategy
• Agencies should begin to move forward with implementation where they can, consistent with the Act’s requirements;
  – Don’t wait to start identifying key individuals and offices who can start collaborating and planning
  – Let us know what you’re doing so we don’t diverge and so that we can learn from what you’re doing
