APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under
penalty of perjury that I have reason to believe that on the following person or property (identify the person or describe the
property to be searched and give its location):

located in the District of Alaska, there is now concealed (identify the

The search is related to a violation of:

The application is based on these facts:

- [x] Continued on the attached sheet.

during this 30 day time period is minimal, and the benefits of continuing to disrupt the Kelihos botnet are significant, the government believes that the extended time period for execution of this warrant is appropriate in this case.

SEARCH AUTHORIZATION REQUESTS

72. Accordingly, for each of the aforementioned reasons, it is respectfully requested that this Court issue a search warrant authorizing the following:

- a. a deployment of updated peer lists and job messages to the TARGET COMPUTERS within 14 days from the date this Court issues the requested warrant;
- b. that the government may receive and review, at any time of day or night, within 14 days from the date the Court authorizes the use of the specified interactive techniques, such IP and routing information that is subsequently transmitted to a computer controlled by the FBI or its private partners working under the direction and control of law enforcement;
- c. that provision of a copy of the search warrant and receipt may, in addition to any other methods allowed by law, be effectuated by electronic delivery of true and accurate electronic copies (e.g., Adobe PDF file) to any owners of affected computers by means of internet publication. These affidavits are posted online, for viewing by Kelihos victims and shared with ISPs for mitigation purposes.

Respectfully submitted,
