INDICTMENT

The Grand Jury charges that:

GENERAL ALLEGATIONS

At all times material to this Indictment:

Medicare Program

1. The Medicare Program (“Medicare”) was a federally funded program that provided free or below-cost health care benefits to certain individuals, primarily the elderly, blind, and disabled. The benefits available under Medicare were governed by federal statutes and regulations. The United States Department of Health and Human Services (“HHS”), through its agency, the Centers for Medicare and Medicaid Services (“CMS”), oversaw and administered Medicare. Individuals who received benefits under Medicare were commonly referred to as Medicare “beneficiaries.”

2. Medicare was a “health care benefit program,” as defined by Title 18, United States Code, Section 24(b), and a “Federal health care program,” as defined by Title 42, United States Code, Section 1320a-7b(f).

3. Medicare was divided into four parts: hospital insurance (Part A), medical insurance (Part B), Medicare Advantage (Part C), and prescription drug benefits (Part D). Medicare Part B covered medically necessary physician office services and outpatient care,

including laboratory tests.

4. Physicians, clinics, laboratories, and other health care providers (collectively, “providers”) that provided items and services to Medicare beneficiaries were able to apply for and obtain a “provider number.” Providers that received a Medicare provider number were able to file claims with Medicare to obtain reimbursement for services provided to beneficiaries.

5. When seeking reimbursement from Medicare for provided benefits, services, or items, providers submitted the cost of the benefit, service, or item provided together with a description and the appropriate “procedure code,” as set forth in the Current Procedural Terminology (“CPT”) Manual or the Healthcare Common Procedure Coding System (“HCPCS”). Additionally, claims submitted to Medicare seeking reimbursement were required to include: (i) the beneficiary’s name and Health Insurance Claim Number (“HICN”); (ii) the date upon which the benefit, item, or service was provided or supplied to the beneficiary; and (iii) the name of the provider, as well as the provider’s unique identifying number, known either as the Unique Physician Identification Number (“UPIN”) or National Provider Identifier (“NPI”). Claims seeking reimbursement from Medicare were able to be submitted in hard copy or electronically.

Part B Coverage and Regulations

6. CMS acted through fiscal agents called Medicare administrative contractors (“MACs”), which were statutory agents for CMS for Medicare Part B. The MACs were private entities that reviewed claims and made payments to providers for services rendered to beneficiaries. The MACs were responsible for processing Medicare claims arising within their assigned geographical area, including determining whether the claim was for a covered service.

7. Novitas Solutions, Inc. was the MAC that covered, among other locations, Arkansas and Oklahoma. Palmetto GBA, LLC was the MAC that covered, among other locations,

North Carolina. Noridian Healthcare Solutions, LLC was the MAC for, among other locations, California.

8. To receive Medicare reimbursement, providers had to make appropriate application to the MAC and execute a written provider agreement. The Medicare provider enrollment application, CMS Form 855B, was required to be signed by an authorized representative of the provider. CMS Form 855B contained a certification that stated:

I agree to abide by the Medicare laws, regulations, and program instructions that apply to this supplier. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on the supplier's compliance with all applicable conditions of participation in Medicare.

9. CMS Form 855B contained additional certifications that the provider "will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and [] will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity."

10. Payments under Medicare Part B were often made directly to the health care provider rather than to the patient or beneficiary. For this to occur, the beneficiary would assign the right of payment to the health care provider. Once such an assignment took place, the health care provider would assume the responsibility for submitting claims to, and receiving payments from, Medicare.

11. Medicare paid for claims only if the items or services were medically reasonable, medically necessary for the treatment or diagnosis of the patient's illness or injury, documented, and actually provided as represented.

Laboratory Testing

12. Medicare only covered diagnostic testing, including urine drug testing and respiratory testing, that was “reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member.” Title 42, United States Code, Section 1395y(a)(1)(A).

13. If diagnostic testing was necessary for the diagnosis or treatment of illness or injury, or to improve the functioning of a malformed body member, Medicare imposed additional regulations before covering the testing. Title 42, Code of Federal Regulations, Section 410.32(a) provided that “all diagnostic x-rays tests, diagnostic laboratory tests, and other diagnostic tests must be ordered by the physician who is treating the beneficiary, that is, a physician who furnishes a consultation or treats a beneficiary for a specific medical problem and who uses the results in the management of the beneficiary’s specific medical problem. Tests not ordered by the physician who is treating the beneficiary are not reasonable and necessary.” During the COVID-19 pandemic, CMS instituted a waiver of the requirement that a practitioner order certain respiratory tests, including respiratory pathogen panel CPT code 87631. However, the other regulations, including that the examinations must be provided as represented, still applied.

Individuals and Related Entities

14. Vitas Laboratory LLC (“Vitas”), a Delaware limited liability company, was a laboratory that purportedly provided urine drug testing and other laboratory testing to Medicare beneficiaries.

15. Corrlabs, LLC (“Corrlabs”) was a laboratory that purportedly provided urine drug testing and other laboratory testing to beneficiaries. Corrlabs was originally formed as Solas Health Technologies, PLLC in North Carolina and was converted to a limited liability company

and renamed Corrlabs, LLC.

16. Nations Laboratory Services, LLC (“Nations”), a Delaware limited liability company, was a laboratory that purportedly provided urine drug testing and other laboratory testing to Medicare beneficiaries.

17. Beach Tox, LLC (“Beach Tox”), a California limited liability company, was a laboratory that purportedly provided urine drug testing and other laboratory testing to Medicare beneficiaries.

24. **BILLY JOE TAYLOR** concealed and disguised his ownership and control by making false statements and failing to disclose material information to Medicare regarding his ownership and control of Vitas, Beach Tox, Nations, Corrlabs, and Imaginus.

25. **BILLY JOE TAYLOR** obtained medical information and private personal identifying information for Medicare beneficiaries by various means, including by purchasing existing laboratories and misappropriating confidential Medicare beneficiary and provider information that previously had been used to submit claims to Medicare.

26. **BILLY JOE TAYLOR** misused this confidential Medicare beneficiary and provider information to repeatedly submit and cause the submission of false and fraudulent claims to Medicare for lab tests that were not ordered by the medical providers and not performed for the Medicare beneficiaries as represented in the claims.

27. **BILLY JOE TAYLOR** submitted or caused the submission by Vitas, Beach Tox, Nations, Corrlabs, and Imaginus of false and fraudulent claims to Medicare in excess of the approximate amount of \$100 million for lab tests that were medically unnecessary, not ordered by medical providers or provided as represented, and ineligible for reimbursement.

28. **BILLY JOE TAYLOR** used the fraud proceeds he received from Vitas, Beach Tox, Nations, Corrlabs, and Imaginus to live a lavish lifestyle, including purchasing luxury items such as automobiles, jewelry, guitars, and other items using the proceeds of the fraud.
