<b>Regulations under Retrospective Review</b>											
<i>New Rule Not Previously Reported</i>											
DOJ	OJP	Public Safety Officers' Benefits (PSOB) Program	TBD	These two related rules are a priority because certain key provisions of the PSOB rule have been superseded by statutory change, a need exists to improve the overall efficiency of the program, and the last significant update to the rules was in 2008. The first rule would be relatively short and would update the existing regulation to address issues related to injuries and deaths of public safety officers asserted to have been caused by 9/11 services, and offset issues with the 9/11 Victim Compensation Fund. The second rule would be a more comprehensive update of the PSOB regulation. These revisions are necessary as a result of significant changes to the Program following the enactment of the Dale Long Public Safety Officers' Benefits Improvements Act of 2012 (signed into law in January 2013), as well as recommendations from an OIG Audit finalized in July 2015, and other internal reviews that identified the need to streamline the claims review process to reduce delays and increase transparency. DOJ	DEA	Revision of Import and Export Requirements for Tableting and Encapsulating Machines, Controlled Substances, and Listed Chemicals, Including Changes to Implement the International Trade Data System	TBD	The Drug Enforcement Administration (DEA) is proposing to update its regulations for the import and export of tableting and encapsulating machines, controlled substances, and listed chemicals. The amendments clarify certain policies and reflect current procedures and technological advancements. They also allow for the implementation, as applicable to tableting and encapsulating machines, controlled substances, and listed chemicals, of the President's Executive Order on streamlining the export/import process and requiring the government-wide utilization of the International Trade Data System (ITDS). The goal of DEA is to make the entire import/export process electronic/online, which will require changes to applications, notices, and all other filings for import/export transactions involving controlled substances, listed chemicals, tableting and encapsulating machines, transshipments of controlled substances and listed chemicals, and international transactions of controlled substances and listed chemicals.	Ongoing	November 2015 (NPRM)	No	No	N/A	Public comments,	Pursuant to section 6 of E.O. 13659, DEA been consulting with CBP and is continuing to study possible modifications to its existing regulations, in order to reduce the burdens on importers and exporters while continuing to maintain effective controls against diversion.
DOJ	EOIR	Recognition of Organizations and Accreditations of Non- Attorney Representatives	1125-AA72	This rule proposes to amend the regulations governing the requirements and procedures for authorizing representatives of non-profit religious, charitable, social service, or similar organizations to represent persons in proceedings before the Executive Office for Immigration Review (EOIR) and the Department of Homeland Security (DHS).	Ongoing	FY 2015	Streamlined requirements	No	N/A	Public comments	This proposed rule promotes the effective and efficient administration of justice before DHS and EOIR by increasing the availability of competent non-lawyer representation for underserved immigrant populations. It seeks to accomplish this goal by increasing the availability of qualified representation for primarily low-income and indigent persons while protecting the public from fraud and abuse by unscrupulous organizations and individuals.

DOJ	EOIR	List of Pro Bono Legal Service Providers for Aliens in Immigration Proceedings	1125-AA62	This rule proposes to amend 8 CFR part 1003 by changing the name of the "List of Free Legal Services Providers" to the "List of Pro Bono Legal Service Providers." The rule would also enhance the eligibility requirements for organizations, private attorneys, and referral services to be included on the List of Pro Bono Legal Service Providers. The proposed rule published on 09/17/14, at 79 FR 55662.	Ongoing	FY 2015	Streamlined requirements	No	N/A	Public comments	This proposed rule will enhance the eligibility requirements for organizations, private attorneys, and referral services to be included on the List of Pro Bono Legal Service Providers (List). The List is central to EOIR's efforts to improve the amount and quality of representation before its adjudicators, and it is an essential tool to inform aliens in proceedings before EOIR of available pro bono legal services.
DOJ	EOIR	Retrospective Regulatory Review Under E.O. 13563 of 8 CFR Parts 1003, 1103, 1211, 1212, 1215, 1216, 1235	1125-AA71	Advance notice of future rulemaking concerning appeals of DHS decisions (8 C.F.R. part 1103), documentary requirements for aliens (8 C.F.R. parts 1211 and 1212), control of aliens departing from the United States (8 C.F.R. part 1215), procedures governing conditional permanent resident status (8 C.F.R. part 1216), and inspection of individuals applying for admission to the United States (8 C.F.R. part 1235). EOIR is currently in the process of reviewing the comments received and drafting two follow-up NPRMs.	Ongoing	2016		No	N/A	Public comments.	TBD

DOJ	EOIR	Separate Representation for Custody and Bond Proceedings	1125- AA78	This rule would amend the Executive Office for Immigration Review (EOIR) regulations relating to the representation of aliens in custody and bond proceedings by allowing a representative to enter an appearance in custody and bond proceedings before EOIR without committing to appear on behalf of the alien for all proceedings before the Immigration Court. The proposed rule was published on 09/17/14, at 79 FR 55659. EOIR has developed a final rule which is undergoing final Department clearance..	Ongoing	2015		No	N/A	Public comments.	This rule will enhance representation of detained aliens by making it easier for aliens who may not be able to afford to hire an attorney for all of their proceedings before the Immigration Court to at least be able to be represented during their custody and bond proceedings. The Department anticipates that this rule will also have a positive economic effect because increasing the number of aliens who are represented in their custody and bond proceedings will enable immigration judges to adjudicate proceedings in a more effective and timely manner.

Executive Order 13659, "Streamlining the Export/Import Process for America's Businesses," provided new directives for agencies to improve the technologies, policies, and other controls governing the movement of goods across our national borders. This includes additional steps to implement the International Trade Data System as an electronic information exchange capability, or "single window," through which businesses will transmit data required by participating agencies for the importation or exportation of cargo.

At the Department of Justice, stakeholders must obtain pre-import and pre-export authorizations from the Drug Enforcement Administration (DEA) (relating to controlled substances and listed chemicals), or from the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) (relating to firearms, ammunition, and explosives). The ITDS "single window" will work in conjunction with these pre-import and pre-export authorizations.

The pre-import/export requests for both agencies occur before the goods are at the border or port of entry, thus allowing adequate time for the respective agency to review the request and pertinent data relating to the request, and

contact interested parties and/or foreign counterparts on the stakeholder's request. Stakeholders seeking to import or export commodities regulated by these agencies will continue to utilize the established application process at each agency. DEA has electronic filing systems for most import and export authorizations, and ATF allows optional electronic filing for import and export authorizations. DEA and ATF systems then supply, by batch, license and permit information to CBP to facilitate validation of licenses and permits for imported or exported goods at the border.
