Subject: Healthy for customers

It works for consumers because it gives home sellers a choice whether to permit marketing of their property on the Internet and in selecting an MLS member with whom they want to work. It allows them to "opt-in" and have their property displayed on other brokers' Web sites even if they are working with a broker who does not participate in sharing his listings for display by his competitors. And it works for REALTORS® because it gives us the right to control where our listings are displayed on the Internet.
