I am writing because I am concerned about the lack of competition in agricultural markets. I am concerned with corporate bullying tactics. I have many friends who are farmers, and I am concerned with a lot of legislation trying to be passed that appear to want it to be illegal to grow your own food I have been hearing from them.

I have a lot more research to do, but it doesnt look good when the government secretary of ag is a Monsanto supporter. Seems corporate control is slowly being injected into government.

Bad News!

Thank you for giving me the opportunity to comment.

Sincerely,
