---

I am writing because I am concerned about the lack of competition in agricultural markets.

I feel that the giants currently controlling our foodsystems and farmers are all about how much money they can make and not at all concerned about our health.

Practices currently in use are distroying our environment and it needs to be stopped.

Please halt pratices of allowing corporations to call the shots- we need to care for the earth and ourselves!

Thank you for giving me the opportunity to comment.

Sincerely,

Emily Lyons
