Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

I believe no corporation should control what seeds are used by farmers, farmers should have freedom of choice what brand of seeds and plants are used.

I am deeply disturbed that Monsanto personnel are appointed to positions in the government such as the US Dept. of Agriculture.

Monsanto seeds are extremely destructive to the eco system. Round up ready crops encourage super weeds and increased use of herbicides.

I sincerely hope you will consider the rights of farmers and the American Public.

Thank you for giving me the opportunity to comment.

Sincerely,

Andrea Pellicani
