I am writing because I am concerned about the lack of competition in agricultural markets. I am concerned about the lack of oversight of the operations of big ag corporations. the lack of inspection of big corporations. I am concerned at the lack of focus on NOT poisoning our food, ground water, surface water, and the air we breathe. I am concerned at the lack of support for small farms and increasing organic production. I am concerned that the government takes better care of the corporations than that of the people.

Thank you for giving me the opportunity to comment.

Sincerely, Cathleen Weston
