I am writing because I am concerned about the lack of competition in agricultural markets. As a supplier of food and as someone interested in sustainable food systems, I find the practices of ag in this country skewed in terms of agribusiness, this is a clear violation of the Sherman Anti-Trust law and since food security is an impending crisis, this is more than an issue of the free marketplace, it concerns our survival.

Until the Dept of Justice pursues this problem we will not have real justice because we won't have food security.

Thank you for giving me the opportunity to comment

Sincerely,
