Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. Just one company, Monsanto, controls the majority of seeds in our country. The way food is grown and raised in ways that is not good for the environment and the methods pollute our water and poisons our soil. We need to get back to a way that is more sustainable for our planet and better business wise for the average farmer, not the corporate farmer.

Thank you for giving me the opportunity to comment.

Sincerely,
Sandy Brown
