---

I am writing because I am concerned about the the corporate control of American agriculture. Food is just as much of an unalienable right as liberty and yet our government does nothing to break the deleterious stranglehold that Big Ag has on the fundamental things that sustain us. Every person around the world should be able to eat healthful food and not worry that what they put in their mouths weakens their bodies and cripples their minds. This is the system we are living with today but it doesn't have to remain as such. I expect you to investigate Monsanto and other nefarious corporate entities that hurt our nation and humanity.

Thank you for giving me the opportunity to comment.

Sincerely,

Max Gordon
