Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. I am very disturbed that I have lost my rights in regard to the food that I can grow and eat. Genetically modified food is not healthy for my body nor for the environment, they go hand in hand. Because it is such a huge conglomerate with so much power the average citizen has been silenced. It is also shocking how Monsanto has threatened farmers from their livelihood.

Thank you for giving me the opportunity to comment.

Sincerely,

Giselle Whitwell
