I am writing because I am concerned about the lack of competition in agricultural markets. Monsanto has proven to be the most wicked, greedy company in the world, and yet they revolve in and out of the FDA and the EPA! What kind of "check and balance" is this??? They are making laws to fit their needs and not for the good of people. Their only interest is MONEY, like most large companies. STOP giving these criminals control of our food!

Thank you for giving me the opportunity to comment.

Sincerely, Myra Spruance
