I am writing because I am concerned about the lack of competition in agricultural markets. Just one company, Monsanto, controls the majority of seeds in the US, and regularly threatens farmers who don't buy its seeds. If there was no thing other than this one, then this is in itself enough. Yet there is much more.

Monsanto is a greedy corporate whoremaster. It is time that they were brought under control.

Thank you for giving me the opportunity to comment.

Sincerely,
