---

I am writing because I am concerned about the lack of competition in agricultural markets. Just one company, Monsanto, controls the majority of seeds in the US, and regularly threatens farmers who don't buy its seeds. Monsanto not only threatens farmers who will not buy their GMO seeds, but sues farmers who save their own seeds until the farmer is forced to settle due to attorney and court cost, and put out of business. Monsanto is violating anti trust laws by ruthlessly eating up the independent farmer.

Thank you for giving me the opportunity to comment.

Sincerely,  
Ronda L Turner
