US Department of Justice

Dear US Department of Justice:

How can we talk of freedom if our personal decisions about what we ingest are taken from us -- such a basic issue. Michelle Obama planted an organic garden, what if that choice was taken from her, her children and grandchildren. I and my family and friends are all very disturbed by the way that Monsanto is attempting to ruin our food supply and our freedom of choice.

Thank you for the opportunity to express my viewpoint. Please do something to stop the domination of our seed and food supply.

Sincerely,

Jeanne Cutler
