US Department of Justice

Dear US Department of Justice:

Thank you for the opportunity to submit comments in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

As an organic consumer, I am particularly concerned about Monsanto's control over the seed supply.

Please listen to the organic farmers. Please listen to people who are not in it for their wallets but want a healthy beautiful planet filled with happy healthy people who are not going against nature's laws but working cooperatively with nature and listening and learning from her. There is too much greed, fear and control involved and not enough LOVE, not enough JOY not enough COOPERATION between loving earthlings.

Obama, we voted for you because we wanted to believe in our vision, and that you held our vision of a beautiful world. Thanks for doing all you can to keep us healthy and whole.

Sincerely,

Shari Elf
