Subject: Comments

I am writing because I am extremely concerned about the food supply in the United States. I have worked as a dietitian in a hospital and taught foods and nutrition for years. All the work I can do will make no difference if we continue to allow big businesses like Monsanto to control and damage our food supply. We are at a really critical point in this area and we must reverse the damage being done to all our bodies.

Sincerely,

Nettie Jean Scarzafava
