---

I am writing because I am concerned about the lack of competition in agricultural markets.

Monsato has to be stopped. Their unethical practices are a major concern to all of us and they should be your concern as well!

With food prices rising yet farmers are struggling- it is not in the best interest of our nation to let food companies' profits soar to unreasonable amounts at the cost of health in America. If you want a healthy country, then let it be affordable to eat healthy food!!! Step up, stand up, and stop this!!!

Thank you for giving me the opportunity to comment.

Sincerely,  
Kellie Ann Murphy
