US Department of Justice

Dear US Department of Justice:

I'm writing about the workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy." I am concerned about Monsanto's control over the seed supply. The food crops that farmers have improved upon over the last 10,000 years should not be allowed to be terminated through sterility by cross-pollination with GMO crops.

This should be outlawed, period.

Sincerely,

John Tindall
