Subject: Monsanto - please read

Dear Friends of the DOJ,

I am writing because I am concerned about the lack of competition in agricultural markets.

Thank you for giving me the opportunity to make a brief comment.

I am a teacher, a wife, and a future mom. I care about what my students and family are putting into their bodies. Big companies like Monsanto should not have such a big say in what goes into the food we eat. GMOs are UNSAFE. We deserve to know what's in our food. Why aren't there decent labels telling us where it grew, what chemicals are in it, and if it's genetically modified? There needs to be a strict set of standards that benefit the consumer - NOT Monsanto.

Please read the book "Seeds of Deception" or see the documentaries "Food, Inc." and "The World According to Monsanto."

Please make decisions that have the health of our children in mind.

Sincerely,
Stephanie L. Heffner
teacher, wife, future mother
