US Department of Justice

Dear US Department of Justice:

Thank you for the opportunity to submit comments in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

As an organic consumer, I am particularly concerned about Monsanto's control over the seed supply.

I find it utterly disturbing to think that a single corporation has as much control over the global food supply as Monsanto. Putting aside the fact that they are an unbelievably shady and probably corrupt organization, no corporation should be able to control life, especially life that is essential to the continued survival of the human species.

It isn't just greedy capitalism, it's flat out wrong in every way imaginable. Please investigate Monsanto so we stop this kind of appalling behavior from continuing.

Sincerely,

Russell
