I am writing because I am concerned about the lack of regulation over Monsanto. Their GMO crops have been shown in a number of animal studies to have dangerous side effects. The FDA scientists said their GMO food wasn't safe yet the politicians overruled them. In addition, Monsanto has one of the most outrageous records of corporate greed and dispicable behavior. In my opion, this company should be shut down.

Thank you for giving me the oppportunity to comment.

Sincerely,

Eric White
