Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. Why are our foods chemically laden. and GMO. All of this is making us sick. These practices are against nature. We will pay a price for this if we continue down this road. We are destroying our environment, our health, so big corporations can make a profit. Why does Monsanto control the seed market? and why are they allowed to threaten farmers. I am very upset with what is going on in our food industry.

Thank you for giving me the opportunity to comment.

Sincerely,
LeeAnn Seely, grandmother concerned about her grandchildrens future.
