I live out in farm country, and I am afraid of the GM seeds used by farmers that need RoundUp to work. We have a huge number of children with disabilities from severe to mild as a result of the water table being polluted with chemicals.

Waukesha had the Best Water in the World and shipped it to the World's Fair in Chicago in 1893. Now, not one of those wells is drinkable and Waukesha is trying to buy Lake Michigan water. Why you may ask? Chemicals! Ask Monsanto how much they sell in Waukesha, Washington and Dodge Counties in Wisconsin. They have so much power that there is real fear of them and their tactics.
