I am writing because I am concerned about the lack of competition in agricultural markets.

Thank you for giving me the opportunity to comment.

There needs to be a cap set on politician terms to stop the bribes and graft that abounds. There needs to be a roll back on all GMO grains and seeds which have only created a monopoly for big companies like Monsanto. God knows what happens in our body cells when we eat genetically modified foods that were never intended to be eaten....who is in charge anyway in the FDA? When will it all stop?

Sincerely,

Marc Beauchamp
