Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

I am also concerned by many aspects of the Monsanto world domination.

For example, as an organic vegetable grower I am shocked that Monsanto and other major seed merchants around the world are allowed to remove from the market more and more vegetable varieties.

Why do we allow Monsanto to patent nature's products?

When will Monsanto be taken to justice for crimes against humanity?

Thank you for giving me the opportunity to comment.

Sincerely,

Sylvain Baudouy
