Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. I'm really concerned about what's in my food - it's very hard to tell from the labels if I'm buying something that's really healthy for my family. I don't want to buy food that contains ingredients that aren't clearly on the label I don't want to buy food that contains ingredients that have been genetically modified. I don't want to buy food that has been treated by pesticides. Right now, I purchase organic when I cook for my family but it's difficult to find and we still have issues when we go out. Please help us be able to get healthier food so that we can raise healthy kids.

Thank you for giving me the opportunity to comment.

Sincerely,

pam may
