US Department of Justice

Dear US Department of Justice:

I have been aware of Monsanto's aggressive attempts to control all seeds used for agriculture since 2002, when I read about it in National Geographic. Since then, I have seen Food, Inc. I also researched gene patents and, in my opinion, they should be made to last for a greatly reduced term (say 2-5 years).

If the things I hear about Monsanto are remotely true, they need to stopped from bullying farmers.

Sincerely,

Alan Hogan
