Subject: CRIMES AGAINST HUMANITY

Deborah Brown
538 Gardiner Rd
Jefferson, ME 04348-4154

December 19, 2009

US Department of Justice

Dear US Department of Justice:

As a citizen of the World/Earth and an organic consumer, I am particularly concerned about Monsanto's control and destruction of the seed supply. They are genetically manipulating nature in a destructive, greedy, self-serving manner.

Monsanto is deliberately and systematically destroying individuals property/seeds/crops, by chemically trespassing with their altered/tainted seeds, which can cross-pollinate with organic and traditional varieties, destroying their unique characteristics and infecting them with genetically engineered chemical dependence or even "Terminator" or "Traitor" technology that renders seeds sterile, a literal death sentence for seeds maintained through conventional breeding.

The same way we protect animal species from extinction, we should protect plant species, especially the tens of thousands of food varieties, from companies like Monsanto that are consciously and illegally eliminating them. THIS IS ONE OF THE HIGHEST CRIMES - A CRIME AGAINST HUMANITY.

I urge you to stop them - ASAP - time is of the essence. They also should be held accountable for the intentional lies and devastation they have inflicted.

Thank you for allowing us to comment. Please stop Monsanto from this destructive, blatant disregard for our planet and it's inhabitants.

Hurry

Sincerely,

Deborah Brown
