US Department of Justice

Dear US Department of Justice:

Thank you for the opportunity to submit comments in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

As an organic consumer, I am particularly concerned about Monsanto's control. They continue to use more and more pesticides and plant their GMO seeds. These foods are not good for the health of people and they know it, however, I truly believe they only care about making money and not the welfare of the people. This is very sad. They need to stop destroying the land and crops and the Justice Department needs to hold them accountable for the damage they have done over the many years to our soil.

Sincerely,

Diane Klotz
