---

I am writing because I am concerned about the lack of competition in agricultural markets. I do not want one conglomerate having control over the food supply. It is morally and ethically wrong!

I want to have a say in what I eat and I have the right to oppose Genetically Modified food. Monsanto is a monopoly and they need to be held accountable for all the damage they are inflicting on our planet with these dangerous pesticides and by their nasty seeds cross pollinating with organic seeds. IT MUST STOP!!!! I will only give my business to small, local, organic farmers.

Thank you for giving me the opportunity to comment.

Sincerely,

Nicole Moore
