US Department of Justice

Dear US Department of Justice:

Thank you for the opportunity to submit comments in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

I am frightened by the food I eat.
I have been studying science journals for years and am beside myself researching the ramifications of GMO.

My belated father, Dr. C.A Ryan was a member of the National Academy of Science. I learned my research skills from him.

There is not enough time or space for the litany of terror and corruption I have discovered researching Monsanto.

I have come to the unfortunate conclusion that transgene contamination and the destruction to food chain is irreversible.

Sincerely,

Jamie Ryan
