I am writing because I am concerned about the lack of competition in agricultural markets, and because of the insane greed motivated practices of companies like Monsanto.

Now that 4 or 5 companies control agribusiness, small farmers are being squeezed out. This is dangerously irresponsible.

Employees of Monsanto have gone to work for the FDA just long enough to change policies to suit their old company, and then quit the FDA and gone back to work for Monsanto. How corrupt can it get? Why is no one in government watching and responding?

Thank you for giving me the opportunity to comment.

Sincerely,

Gary Schwartz
