Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

The name Monsanto is equivalent to corporate greed and malevolence. From promoting bovine growth hormone and genetic engineering to patenting seeds that will not reproduce, Monsanto's history shows a complete disregard for the health and future health of the human race.

I have no personal story to tell because I avoid any product that Monsanto has had anything to do with, however I firmly believe that this corporation is an out and out disgrace.

Thank you for giving me the opportunity to comment.

Sincerely,

Pamela Strong
