Subject: Our Food

I am concerned with food handling and safety, e-coli, etc. Better and more inspections are needed! Also, small farms are going out of business because they can't compete with mega farm operations. Prices are way to high for most families to buy the food they need. We need some kind of control on pricing! These Industrialized farms and consolidated buyers are controlling the food market. Once again, corporations have the power to control the market! We need some kind of regulations that work fairly for everyone. Thank you, Mrs. Boydston. (cdboydston@yahoo.com)
